

We, democratic activists from Vancouver, Canada, strongly salute and support for those activists who have been executing their vows and demands by long march and hunger strike. Life is short and problematic but it is also very meaningful if you choose the right path and do the right actions. When someone was born, it is the beginning of his or her death. Between live and death we provide our best contribution to our society. Now we see a group of heroes who dare to challenge their own death and build their destiny. We are very proud to have our heroes, and we support them by all means. You are our heroes, our role models, our inspiring leaders. You write your own history and political milestone. Again we salute you!!! Democracy and Human Rights must be restoring in Burma. Burma will be free!!!

With Greatest Support,

Burmese Democratic Activists in Vancouver
Canada
